

Beginning this spring, Brookings Friends of Baseball has adopted online registration through a service known as Sports Signup (www.sportssignup.com). With their service, registration for all levels of baseball that we sponsor will become much simpler than in the past, along with being more streamlined. Below you will find complete instructions on how to create an account and register your child(ren).

** Should any questions arise during account creation or registration, please contact Aaron Jorenby via either call or text at 691-9355, or email at aaronj@brookingsbaseball.com. This information will also be posted on the FOB website – www.brookingsbaseball.com.

Registration Instructions

1. Access the Online Registration link via the FOB website.
 2. Check the registration homepage for messages pertaining to specific teams and read if applicable, then click the “Click here to Login and Register” button atop the page.
 3. If registering for the first time click the Create Account button. Future registrations won’t need account creation.
 4. Enter your desired login information (desired email address and password) and then click Next.
 5. Enter the requested information (name, address, etc.) and click Next.
 6. If you are the only parent or guardian you can skip this step and move to item number 7. If you have a spouse we ask that you also include their information prior to registering your child(ren). Click Go to Account, then under Adults click Add Adults, then fill in the information it requests and click Save. Doing this allows FOB to have both sets of parent/guardian information (if applicable) in case something should come up.
 7. Upon completing your account registration you’ll arrive at a screen that says Add Children and Add Adults. Click Add Children, then fill out the appropriate information including birth date and grade, then click Save. Additional children? Repeat this step.
 8. After entering all children you’ll be given the option to register each child for specific teams/levels. You’ll need to register each child separately. Click Register Now by a child’s name.
 9. The Choose a Session page will appear. The system will automatically filter out teams which your child is not eligible for based on age. Decisions to move kids up in levels (ie. Bullets to Bandits) will be made by coaches, however there will not be a change in fees. Click Register Now by the first session you wish to register for.
 10. Fill in emergency contact info then click Continue.
 11. Select the appropriate division and click Continue.
 12. A consent page may or may not appear next, depending on which levels you are registering for. If applicable, read the information and choose whether to Agree or Disagree.
 13. If registering for only one session click Check Out. Additional sessions? Repeat steps 9-12.
 14. Upon registering for all sessions you wish to register for you can click Check Out. Choose whether to pay by check or by credit card, then click Continue. Either option will have specific instructions on how to finalize payment. When all payment info is entered click the Confirm Order button which will finalize your registration.
 15. A Checkout Complete page will load, containing additional instructions and a page on the FOB website to visit which includes a checklist of necessary items for each team which must be physically signed and turned in.
 16. Check your email inbox and you should have a receipt for your registration.
-

We hope that online registration is an enjoyable new feature!!!
